19. CLEAN REGATTA AND DIDYMO PREVENTION

- 19.1. We have registered the event as a “Clean Regatta” which means we are encouraging all participants to reduce their impact on the environment. This means:

-No bottled water will be for sale at this event. Please make sure sailors are equipped with reusable bottles that they can fill up at our water-fill stations. Mums and Dads, please don't forget your reusable coffee cups too.

Didymo (sometimes colourfully called “Rock Snot”) is a noxious water weed which can ruin freshwater environments and fisheries. It is vital that we prevent Didymo from invading the rivers and streams around Lake Taupō. As you move between freshwater ways, you will need to be sure that all your equipment is thoroughly cleaned, so that the weed does not infect clean waterways.

20. RISK STATEMENT

- 20.1. Competitors participate in the regatta entirely at their own risk. RRS 4, *Decision to Race*, states: “The responsibility for a boat's decision to participate in a race or to continue racing is hers alone.”

Sailing is by its nature an unpredictable sport and therefore inherently involves an element of risk. By taking part in the event, each competitor and the responsible adult agrees and acknowledges that:

- a) They are aware of the inherent element of risk involved in the sport and accept responsibility for the exposure of themselves and their boat to such inherent risk whilst taking part in the event.
- b) They are responsible for the safety of themselves, their boat and their other property whether afloat or ashore;
- c) They accept responsibility for any injury, damage or loss to the extent caused by their own actions or omission.
- d) Their boat is in good order, equipped to sail in the event and they are fit to participate;
- e) The provision of a race management team, patrol boats and other officials and volunteers by the event organiser does not relieve them of their own responsibilities.
- f) The provision of patrol boat cover is limited to such assistance, particularly in extreme weather conditions, as can be practically provided in the circumstances.
