The Start will be the usual 3 minute back to back sequence run from the Committee Boat. Depending on the wind direction the start direction may be on any point of sail!

All signals will be made from P6.

Marks 1 and 2 will be laid along the wind direction as far as possible, so Mark 2 may not be where it is on the diagram. Mark 2 could be upwind or downwind of Mark 1.

Your first rounding of mark 1 will be to starboard. The remaining roundings will be to port.

We may finish up sharing the area between mark 1 and the finish lines with the F/TS fleet.

If you are still on the water when they come through, remember they are racing too, and the right of way rules apply to all boats.
